## # BUY & CO ! - Ruby On Rails Application (Personal project)

Rails application allowing the publication of classified advertisements with roles : user and admin. Advertisements not approved by the administrator are not in the list visible to users. Users can post an ad, update it and add comments.

**Codebase :** <https://github.com/Kwette/petites-annonces-rails>

**Screenshots :**

[https://www.behance.net/gallery/90445649/Buy-Co--Publication-dannonces-\(Application-Rails\)?tracking\\_source=](https://www.behance.net/gallery/90445649/Buy-Co--Publication-dannonces-(Application-Rails)?tracking_source=)

## # CINEMA DES ARCS HACKATHON - Ruby On Rails Developer (Les Arcs Cinema Festival)

Development of the Rails application "Cine-Talks" in progress => Platform bringing "speakers" into contact with cinemas and distributors to facilitate the creation of events around a film such as debates, discussion with an actor, an author, transversal stakeholders, associations etc.

## # TRIPPER - Ruby On Rails Application (End of study project - Bootcamp Le Wagon)

Project carried out in a team of 5 people then graphic overhaul by me.

Rails application - Trip planner => Plan a trip with activities chosen according to preferences and disclosed or not according to the "percentage of mystery chosen by the user"

**Codebase :** <https://github.com/Kwette/trip-planner-refonte-rails-app>

**Screenshots :**

[https://www.behance.net/gallery/89014253/Tripper-Travel-planner-\(developed-in-Ruby-on-Rails\)?tracking\\_source=](https://www.behance.net/gallery/89014253/Tripper-Travel-planner-(developed-in-Ruby-on-Rails)?tracking_source=)

## # WHATS\_ACT - Application Ruby On Rails (End of study project - Bootcamp Le Wagon)

Basic project carried out in a team of 5 people then taken over by me -> total redesign of the site + addition of functionalities.

Rails application for booking sporting, cultural activities with a «chat» between buyer and seller.

**Codebase :** <https://github.com/Kwette/What-s-Act>

**Screenshots :**

[https://www.behance.net/gallery/89014253/Tripper-Travel-planner-\(developed-in-Ruby-on-Rails\)?tracking\\_source=](https://www.behance.net/gallery/89014253/Tripper-Travel-planner-(developed-in-Ruby-on-Rails)?tracking_source=)

## # COCKTAILS-RECIPES APP' - Ruby On Rails Application (Study project - Bootcamp Le Wagon)

Online here : <https://my-cocktails-recipes.herokuapp.com/>

Rails Application to create or consult cocktail recipes and add reviews. MVC based on a C.R.U.D.

**Codebase :** <https://github.com/Kwette/mister-cocktail-rails-app>

**Screenshots :**

[https://www.behance.net/gallery/88966283/Cocktail\\_Recipes-\(Ruby-On-Rails-Web-Application\)?tracking\\_source=](https://www.behance.net/gallery/88966283/Cocktail_Recipes-(Ruby-On-Rails-Web-Application)?tracking_source=)
